EXPERIENCE

Application Developer | Dynamic Liquids   February 2025 - present

- Contributed to 6+ projects, including Algo – a company-owned AI-powered business suite (POS, Email Builder, Finance, and other enterprise tools). Played a key role in frontend development, building scalable UI and integrating AI-driven features.
- Delivered 3 e-commerce websites as a Full Stack Developer, handling both frontend and backend with secure integrations, optimized performance, and responsive design.
- Built 2 modern web applications using Next.js, React.js, Tailwind CSS, Shadcn, and Firebase, ensuring seamless user experience and responsive layouts.
- Designing and optimizing front-end performance to deliver a consistent, cross-platform user experience across desktops, tablets, and mobile devices.
- Collaborated with cross-functional teams, transforming requirements into efficient, maintainable, and user-centric solutions.

KEY TECHNOLOGIES

Frontend: React.js, Next.js, Tailwind CSS, Shadcn

Backend / Database: Express.js,Firebase,REST APIs

Other Skills: Responsive Web Design, UI/UX Best Practices, Version Control (Git)

PROJECTS

- Algo (Company-Owned Product): Contributed as a Frontend Developer to build and scale an AI-powered business suite integrating POS, Email Builder, Finance Management, and Productivity Tools, enabling businesses to streamline operations.

- E-commerce Websites (3 Projects): Worked as a Full Stack Developer, implementing product catalogs, payment gateways, user authentication, and responsive UI.

- Web Applications (2 Projects): Developed dashboard-based apps with Firebase backend, modern UI frameworks, and real-time data handling.

- Freelance Web Projects (2 Websites): Designed and developed professional business websites and portfolio platforms for clients, focusing on responsive design, animations, and performance optimization.

EDUCATION

2020 - 2024 | KONGUNADU COLLEGE OF ENGINEERING AND TECHNOLOGY
Bachelor of Computer Science and Engineering
